"Throughout my entire career I have been doing business in or with Hermantown. The City leaders are open-minded about business and helpful in producing a better community. Hermantown has been a great business partner and has been extremely fair in the process of operating a business. This community is very tight knit, always willing to help each other. We are blessed to have ambitious people working and living here. The leaders in Hermantown are purposeful about making our city what it is today and where it's heading in the future. That feels right."

- Greg Borash,  
CFO Miners Inc.
